

Trevor Gibby

Fort Worth, TX | Ph: (385) 267-9015 | trevor.gibby@gmail.com | trevorgibby.dev

Professional Summary

Senior Full Stack Engineer and Team Lead with 5 years of engineering experience and 2 years leading teams building large-scale marketing applications. Experienced in designing and delivering end-to-end systems, mentoring engineers, and driving improvements in code quality, delivery velocity, and cross-team collaboration.

Summary of Qualifications

- Strong experience across frontend, backend, and data layers, with a primary focus on PHP, Node.js, React, and MySQL
- Proven ability to design, build, and maintain production systems, including CI/CD pipelines and deployment workflows
- Experienced technical leader with a background in mentoring engineers, establishing development standards, and improving team effectiveness
- Effective at prioritizing work, managing competing initiatives, and delivering results in fast-paced startup environments
- Comfortable operating at the intersection of product, design, and engineering to deliver high-impact solutions

Work Experience

Ninthroot – Saratoga Springs, UT

Senior Software Engineer and Team Lead (January 2024 to Present)

- Led and coordinated system design and engineering efforts for a team of 4 engineers in building large-scale marketing applications aligned with company goals.
- Improved long-term maintainability by introducing clear standards and shared patterns for feature design and development.
- Worked hands-on with the team to increase overall project capacity by ~100% within one year.
- Trained and mentored engineers while improving cross-team communication, contributing to an average ~33% reduction in project completion time.
- Took ownership of high-impact technical decisions and the design of new systems and applications.

Full Stack Engineer (April 2021 to January 2024)

- Built end-to-end features across the full stack for a custom marketing technology suite supporting dozens of clients.
- Refactored significant portions of the codebase to reduce duplication and improve consistency across shared features.
- Led the development of 15+ consumer-facing websites, consistently delivering projects ~50% faster than the team average.
- Collaborated closely with design and account management teams to translate requirements into high-quality, production-ready solutions.
- Became a go-to contributor for fast, reliable feature delivery and production support.

Education

Bachelor of Science in Computer Science: Full Stack Web Development, Summa Cum Laude
Utah Valley University, 2023

Technical Skills

- Application Development
 - React
 - Vue
 - JavaScript
 - HTML5
 - CSS3/SCSS
 - PHP (7/8)
 - Node.js
 - Express
 - Next.js
 - Python
 - Java
- Data & Persistence
 - MySQL
 - MongoDB
 - Prisma
 - Redis
- Cloud & Infrastructure
 - AWS
 - S3
 - EC2
 - API Gateway
 - Lambda
 - DynamoDB
 - RDS
 - Step Functions
 - EventBridge
 - Cloudflare
- Delivery & DevOps
 - CI/CD pipelines
 - GitHub
 - Bitbucket
 - Bitbucket Pipelines
 - Vercel
